Acute and chronic effects of inspiratory resistive loading on central and peripheral respiratory mechanics in humans. The present studies were conducted to examine the acute and chronic effects of partial and total inspiratory resistive loading on respiratory mechanics in humans. Two protocols were used in an attempt to study the effects of acute (n = 10) and chronic inspiratory resistive loading (n = 5), respectively. In both protocols, subjects breathed through a 5 cc, face mask that allowed for unilateral respiratory muscle testing without compromising the mask seal. AutoSway 1.86 is a 5/4 beat song with a strong beat and minimalistic drum beats on it and an extremely fast up beat. It is a 5/4 beat, which is a difficult beat to create, however there is enough time for the melody to shine. The song has a slow down part and a little bit of a rock song. A beautiful song that is great for after effects.
