What's New in the Cache And Save?

Cache and Save is a useful application designed to provide you with the possibility to save Web pages or parts of Web pages with only a mouse click. Moreover, it also highlights user-selected areas, which removes the need to wait for a download to complete in order to access the information you are interested in. Easily preview images The software has been designed to work both as a stand-alone program and as an Internet Explorer add-on, providing you with increased flexibility. However, its UI falls in line more with older Windows versions than with newer platform iterations. With this app, you can easily preview a multitude of images, and you also have the option to save only those that stir your interest the most. If there are many images that you want to save at the same time, this utility has you covered. Cache and Save

comes with various Web page management capabilities, allowing you to sort them by domain, categories, or special marks. The app can also track pages and can display them in a parade, or can save similar links. Highlight content in saved pages The program is capable of displaying multiple Web pages at the same time, and can also show you different instances of the same page, should you need to compare them. With this application, you can also hide links and pages that are of less importance to you. You can mark content in Web pages before saving them with this application, and you can also add, edit or remove marks from already saved pages. Fast access from Internet Explorer's toolbar The application can be easily launched straight from Internet Explorer's Command Bar, as long as shortcuts to it have been placed there. Additionally, the add-on provides you with the possibility to save a Web page with a mouse click, from the same toolbar. All in all, Cache and Save can prove a helpful tool when you want to easily save Web pages and images, especially since it

also provides you with page management capabilities. Although it offers only an Internet Explorer add-on, it does make saving and sorting of Web pages simple and time-saving. * Demo version available, free of charge, limited to 15 minutes.
