#### What's New in the Clock-on-Tray Pro?

Clock-on-Tray Pro (for Windows XP / Vista / 7 / 8 and Windows 10) will improve your computer experience and make it more attractive. Amazing clock with multiple time zones, awesome skins collection and calendar, advanced features and easy-to-use design will leave you speechless. After installation you will see

---

how your desktop clock and calendar will get a completely different, amazing, stunning views. It's very easy to set up your time zone. You only need to choose a country, and the entire region will be added automatically. Support for calendar add-ons and time zones will make this clock even better. Alarms, events, reminders and birthdays will also be treated with ease. Clock-on-Tray Pro supports animated time zones, time zones, and multiple time zones. It will display the time in a 12-hour format. You can set how you want your desktop clock. Simply select the type of the desktop clock: the standard, countdown, analog clock, and analog clock on a small screen. Feel the difference between the old boring desktop clock and one offered by this application. The possibility of adding time zones will

---

make the clock even more stunning. Clock-on-Tray Pro has an alarm system with a built-in alarm clock. You can create an unlimited number of alarms, events, reminders and birthdays. Alarms, events, reminders and birthdays will be treated with ease. The alarm clock feature is available only if you have installed the Clock-on-Tray Pro add-ons. It is easy to organize your day and to do not forget the birthdays of relatives and friends. This application will help you to quickly perform your daily tasks and will make your computer experience more attractive. Clock-on-Tray Pro supports the NTP protocol, which ensures high accuracy of time synchronization. It will allow you to select one of the 10 animation effects (bounce, intersect, slide, etc.) for your clock. You can also

---

easily customize the desktop clock and calendar. You can select any background and foreground clock will be located, look and move at your discretion. You can also set screensaver and customize its appearance. Clock-on-Tray Pro has a built-in screensaver, which will allow you to set any background and foreground clock will be located, look and move at your discretion. Feel the difference between the old boring desktop clock and one offered by this application. Clock-on-Tray Pro supports the synchronization with NTP time servers. The synchronization will ensure that your clock has accurate time. You can also set a customizable screensaver. The screensaver will automatically play a picture or any song (in the case of the
