

The EZDrummer MPS Metalheads VSTi 1.1 update contains many new features and improvements to help you create better music faster. MPS Metalheads (Metalhead System Plays Drummer) is the latest version of the popular VSTi plugin that has all the features you've come to expect from MPS. You can play drums like never before. MPS Metalheads uses a patented technology based on the use of the "metal delay" effect. This allows you full control and control over your MIDI instrument to easily tune it to achieve any desired modulation.
