World builder apps - Premier Online Job Portal for free jobs in around the world in 80 daysThe successful development of computer systems in general, and the development of graphics systems in particular, has been strongly influenced by the explosive growth of the computer graphics market during the past two decades. Early computer systems were relatively slow and typically included simple graphics systems providing 2-D graphics primitives such as characters and/or simple geometric shapes. In order to increase graphics speed and capabilities, graphics systems were developed that provided 2-D graphics primitives, such as triangles, filled polygons and splines, along
