

What is Nokia 1616 network unlock? In many cases, when you buy a new Nokia 1616, it comes with an embedded SIM card that has a certain network service... What is Nokia 1616 Network Unlock? In many cases, when you buy a new Nokia 1616, it comes with a built-in SIM card that has some network service... for both GSM and CDMA. However, most of these GSM phones do not come with a SIM card and as such they cannot connect to a mobile carrier or simply cannot. In these cases, unlocking your Nokia 1616 is required so that you can access your mobile operator's network.
