Q: Do planar graphs always have spanning Eulerian paths? A graph is Eulerian if every vertex has even degree. Are planar Eulerian graphs uniquely Eulerian, that is, do they always have a spanning Eulerian path? A: Yes, an Eulerian path is unique. For any Eulerian graph, there is a BFS which produces a spanning Eulerian path. So any Eulerian graph has a spanning Eulerian path.

Q: How to update UIPickerView selections after a save button click event? I am trying to learn more about iOS programming and I have created a UIScrollView and UIPickerView with a few rows in it. I wanted to learn how to add an extra button on top of the UIPickerView and that button will be able to save the picker selection into the Core Data store, here is the function I tried to add in order to see if it's working but unfortunately it didn't:

```
@IBAction func savePickerView(sender: UIButton) { if let story = self.pickerDelegate?.story
```
