Welcome to the first episode of PRIDE as a multiplayer game based on a real story. Today we will discuss the events of the afternoon of July 25, 2019, the famous "Pride Parade", in Dublin. Known as "The GAA's Pride Parade" ("Le Précédent de la Parade de la GAA") or "The GAA Parade" ("La Parade de la GAA") in French, or "The Open Championship Parade" ("La Parade de la Coupe d'Europe") in German, the "Pride Parade" is the largest parade in the world. This parade is held every year since 1970, in order to promote gay rights in Northern Ireland, and has become famous as a way to promote

tolerance and acceptance in Northern Ireland, Ireland and the United Kingdom as a whole. Parades The parade is an annual event, similar to the Gay Pride parade in other countries, and has been organized by the gay and lesbian organization, Orana and the Pride in Diversity Network (NDNI) since 1970. The parade, which is held each June, normally begins at 11:30 AM and ends at 2:30 PM. It takes place along the streets of the city of Dublin, in the west of Northern Ireland, with the route being in Sandycove, Dublin. This part of the city is an ethnically diverse community, which accounts for the lack of discrimination during the parade. Parade-goers can expect to see people of all ages and nationalities, wearing brightly coloured flags and banners, while

SuperMan Video Tutorial 1: Job Focus Introduction Fire Commander: First Response is a new 3DS Max/Maya-based asset using Sculptris 2.5 to create a toolset for organic fire modeling, real-time rendering, and rendering for television. With over 400 languages and counting Fire Commander: First Response provides a significant leap for 3D modeling in the 3DFX commercial product line. Fire Commander: First Response differs from FireSculpt as while FireSculpt utilizes rational polygon models, Fire Commander: First Response is more as an organic VFX asset tool based on the representation of a fire on a stereo c-arm.(FIRST RESPONSETool The Fire Commander: First Response assets are modeled using an organic sphere to represent the fire source. STEPS 1. File Types Note: with the development of First Responder, the.Mdx file format has been superseded by the new.SCMT file format and all the assets are now contained in a root SCMT file. For a detailed description of the correct file structures please refer to the manual. 3DS Max Assets Create the first Fire Commander: First Response scene using the Scriptural

Environment for FireCon command line SCMT Files First of all Fire Commander: First Response uses a SCMT asset format. All characters, light probes, keyframes, physical objects such as monitors in an environment have SCMT data. Particles (as defined in Sculptris 2.0) can also have SCMT attached so that the user can control or define the particle lifespan. The SCMT file is basically a shaded version of the.dxf file format. As such when filling a scene using an SCMT file you do not need to block cut: you can fill entire scenes under complete control. Autoset The autoset feature in 3DS Max allows you to do just this - you can direct the 3DS max tool set to the point where it executes the autoset algorithm. While the result in terms of the number of surfaces computed is the same as if you manually set up the whole control mesh, you still have the ability to influence the number of channels and the level of complexity of the surfaces produced. Autoset is not just a rule of thumb; it is an integral part of many 3DS Max rendering pipelines. See the Autoset tutorial for more details. Create the scene and

Broforce is a war game to the extreme. You command a squad of soldier-zombies, the twisted offspring of mankind. Your mission: annihilate all that threatens the open-world of Broforce. And kill your friends. Your enemy is not a traditional army. The xenomorph, an alien infestation, is out to destroy mankind. To bring forth the ultimate species. To own the Earth. Broforce is a game by Raven Software, the masters of war. From Panzer General, it has all the features and mechanics you need to get into the war as one of the deadliest soldier-zombies. Featuring: An insane open-world:

Go from town to town to do whatever you want. The game features three towns to explore: Humansville, Xenotopia and Xeno-world. These are connected by a light-rail system. This system is similar to an elevator. It will drop you into the town you want to go. Try to get out of the rail and enjoy your ride in the opposite direction! Multiplayer: Play online with 4 players or offline against AI. You can even host a game! An insane arsenal: With the human-zombie hybrid, you can use their body as a weapon. Use it like an RPG: throw it, punch with it, shoot with it, you can even throw it at the enemy to hit them. Succulent graphics: Your graphics won't keep up with the best of last gen consoles but this is a relatively new game. An insane storyline: With the destruction of Earth you and your friends are thrust into an amazing new world. To deliver humanity from the grotesque threat that stands before them. Make your own story! Choose from diverse missions, enemies, difficulty levels and stories. There is more than one way to the finish line. About You: Eager to save your species. When a group of scientists discover a huge alien spaceship, the xenomorph invasion is underway. Your mission is to take your squad of soldiers and kill the motherfuckers. Don't worry, the xenomorph is nocturnal. They prefer the darkness and you are there to light the way. To kill the alien. Kill your friends. About the Xenomorph: The forces of the dark have come to Earth and no force can stop them. The xenomorph is the killing machine, they eat humans but they are nocturnal. They like the dark. They aren't actually alien, they are a product
