## System Requirements For Winter Holiday Icons:

Minimum system requirements are a 1GHz Dual Core processor and 1GB RAM, Windows 7 or later. For best performance, we recommend you run the game in DirectX 11 mode. In this mode, the game runs smoothly on systems with lower-powered graphics cards. We recommend the latest NVIDIA or AMD graphics cards for best performance. A discrete graphics card is required to use any of the advanced effects such as shading, post-processing, or anisotropic filtering, and to utilize the 2D or 3D UI features. Windows 10 may not work
