Only watch in Netflix. And it's a PG-13 rated epic budgeted at more than \$100 million Robin Hood: Prince of Thieves is a 1991 British-AmericanQ: Git push will not add new files Our team used to use Source Safe, but was forced to move to a Git repo. I've been doing some teaching and learning, and am at a loss for what could be causing this issue. A Git repo looks like this (I think?): /projectA/shared/db/scripts.sql /projectA/shared/db/steps.sql /projectA/shared/db/data.sql I've set up a folder called github-testing on my desktop and copied the shared folder to it. When I type "git add." " and "git status" in the test folder, I get the following: \$ git status On branch develop Your branch is ahead of 'origin/develop' by 8 commits. (use "git push" to publish your local commits) nothing to commit, working directory clean \$ git add. \$ git status On branch develop Your branch is ahead of 'origin/develop' by 8 commits. (use "git push" to publish your local commits) nothing to commit, working directory clean If I then type "git push" I get the following: Counting objects: 27, done. Writing objects: 100% (27/27), 253 bytes, done. Total 27 (delta 0), reused 0 (delta 0) I would appreciate any feedback/pointers you could give me. Thanks. A: In my case, what I needed to do was to type the following in my terminal: \$ git rm --cached shared \$ git add shared \$ git commit -am"Added shared folder" \$ git push --all Hope this helps somebody in the future! , what I mean to say, it was the result of the horror that is American football."
